

RODANIA®
SWISS SINCE 1930 

COLLECTION 2018 - 2019

Punctuality is a religion to the Swiss. The Swiss manufacture watches with superb quality and craftsmanship. In order to gain the title of a Swiss quartz watch, the timepiece must be genuinely constructed with finest Swiss materials. A quartz watch can only be considered as an authentic Swiss watch if it is powered by a Swiss movement made by a Swiss manufacturer. With regards to mechanism and movement, Rodania Swiss watches utilize the Swiss ETA and RONDA movement.

THE ANTARCTIC COLLECTION: A TRIBUTE TO THE 1959 BELGIAN ANTARCTIC EXPEDITION

The Antarctic collection from the watch brand Ronda, a part of the iconic 1930-line, is a tribute to the Belgian Antarctic Expedition of 1959. The classic Polimer model, which was exclusively designed for the expedition crew, serves as an inspiration for this line of watch models.
